# BENGALURU TECH SUMMIT

16-18 ■ NOV 2022 ■ BANGALORE PALACE

**Welcome to Bengaluru Tech Summit 2022**, an event platform that is as synonymous with future technologies and beyond as is the city of Bengaluru. This year 2022 is also special because it is the event's 25th anniversary.

## It is time to celebrate!

BTS 2022 is not just a confluence of all things IT, Electronics, AVGC, Biotech, Start-ups and allied domains but an acknowledgement of the success of Bengaluru as an IT and Biotech hub; the celebration of the world's recognition of India, as a technology powerhouse; and the realization of a dream of better living for millions who have benefitted from this renaissance.

# Celebrating 25 years

The journey of a city.  
The evolution of a platform.

The Bengaluru Tech Summit has come a long way. What began as an enthusiastic effort pioneered by a few visionaries from Bengaluru and across India, is today a vibrant ecosystem that impacts the world. More importantly, it has put India permanently on the world map, as a destination not just for outsourcing services in IT, Electronics, Biotechnology, and other allied areas but as destination that offers high end future technology solutions.

## And Bengaluru is the city of choice!

There is something special about Bengaluru in its location, weather, culture, attitude and the overall vibe. There is innovation and dynamism in the air. From day one, everything about the city was and continues to be conducive for the growth of future technologies, be it in IT, DeepTech or Life Sciences.

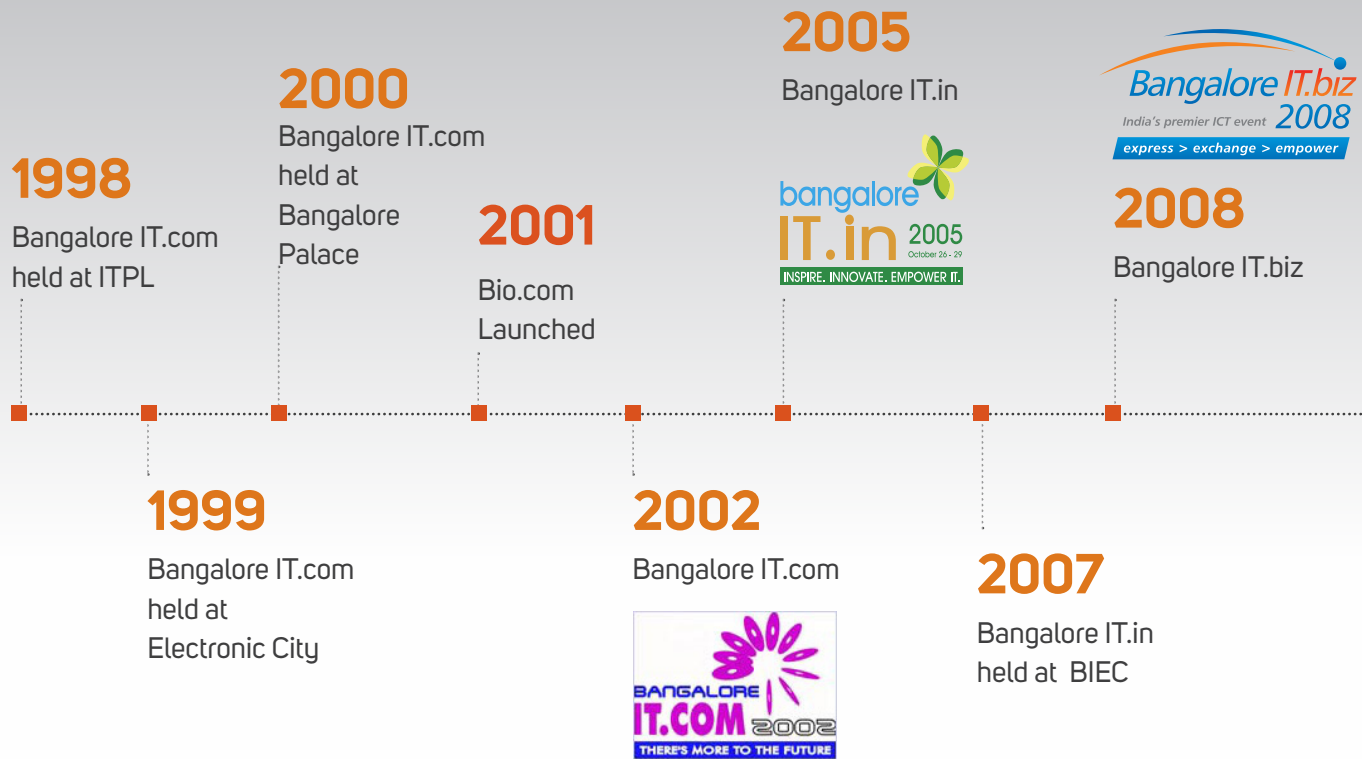

This cosmopolitan megacity is now a crucible for innovation and performance, home to some of the best known names in technology, and world class talent. In a way, BTS 2022 is a celebration of the city of Bengaluru and its 25 years of Leadership too, as the objectives are entwined and both share the common DNA of growth and technology.

BENGALURU TECH SUMMIT

*We would like to thank the visionaries and technocrats who have dreamed, envisioned and guided us and made this Asia's biggest Tech summit a most sought after Tech event from last 25 Years.*

While Bengaluru was attracting globally renowned names in IT enterprises, business leaders, entrepreneurs, influencers, enablers and producing whiz kids who went on to contribute to the revolution underway. On its part, the State Government too was creating the eco-system for this sector to flourish in many ways. One such initiative the Government of Karnataka took along with Software Technology Parks of India (STPI) Bengaluru, industry representatives was to create an enduring platform that would bring together all the stakeholders in the technology universe. **‘Bengaluru IT.com’ was born in 1998.**

Even as **‘Bengaluru IT.com’** was growing in influence and stature, the Government of Karnataka launched Bengaluru Bio in 2001, an annual event dedicated to Biotechnology. Both these events in the long journey kept pace with the changing dynamics, transformed through many avatars.

In 2017 both these iconic events came together to become **BENGALURU TECH SUMMIT (BTS)** a truly unifying platform for different streams of technologies.

**BTS 2022** promises exposure to future technologies which are advancing at a rapid pace, delivering immersive experience, will open newer markets, opportunities for collaborations, deals for businesses from multinational enterprises to startups.

Also significant is the return of BTS to its full glory. Last 2 years the event was held in hybrid format. This year however BTS 2022 promises to revive that spirit of physical event where you meet your community face-to-face. It will indeed be a charged atmosphere yet again!

# 25 YEARS

## One common backbone

Since inception, the support from the respective governments in the State of Karnataka has been unwavering. Whether it is a political leadership or policy makers, every officer and team member down to the last individual, has given his or her best to create this platform. Yet this event is driven by the Industry and Industry bodies. An enduring example of spirit, camaraderie and success. This synergy between the Government, Academia and Industry led by three Vision Groups on IT, Biotechnology & Start-ups and Industry bodies has resulted in a seamless, high energy event year on year.

# BTS 2022

## What to expect?

The event in its 25th year and going by the philosophy since inception, is going to be bigger, better and more impactful.

Present at the event will be some of the world's leading companies in Information Technology, Electronics & Semiconductors, AVGC, Biotechnology and Deep-Tech impacting many industry verticals may it be Education, Healthcare, Agriculture, Mobility, Logistics, Finance, Telecom and Manufacturing or for that matter governance. They will be presenting and unveiling some of the world's most advanced devices and solutions.

In fact, several Indian companies are expected to showcase innovative solutions inspired by Hon'ble Prime Minister Shri. Narendra Modi's mantra of "Make in India" and "Make for the World".

These will be joined by, Unicorns, Soonicorns, Startups, Investors, R&D professionals, Academia, and Policy makers.

All in all, 'Proud Legacy. Promising Future', which aptly sums up what the platform has been all about. A brand that has been a binding force for all things, technology, talent, partnerships, innovation and of course India.

## BTS2022 Conference

India's biggest technology summit will deliver another fulfilling, enriching, and inspiring conference with participants from IT, Biotech, Deep tech and other future unravelling technologies. The event is all set to benefit industry leaders, technocrats, young innovators, investors, R&D professionals, academia, and policy makers.

The driving theme this year is "Tech for the Nextgen" which sets the vision for the decade ahead encompassing future technologies and new paradigms. This will be covered through live panel discussions, fireside chats, keynotes and presentations. With over 70+ sessions and 300+ global domain experts BTS2022 is a zillion opportunities for every-one, under one roof!

### C O N F E R E N C E   T R A C K S

#### IT Track - Tech4NexGen

Driven by Vision group on IT to cover wide spectrum technologies from IT, Deeptech, Electronics and AVGC addressed by global thought leaders and Industry Captains.

#### Bio Track - Leading the New Normal

Driven by Vision group on Biotech capturing the next wave of innovation which will drive the future of Healthcare, the most important challenge to be addressed globally.

#### StartUp Track - We Define Tomorrow

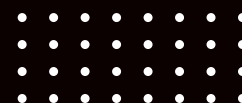

Driven by Vision group on Startups which will bring the brightest young entrepreneurs who are taking the world by storm challenging every established world order.

#### GIA Track - Innovation Beyond Boundaries

Driven by Karnataka's Global Innovation Alliance Nations eager to unfold exciting possibilities of cooperation and collaboration in various streams of technologies and businesses for common good.

#### India USA Tech Conclave

Driven by US India Business Council aimed at deepening India – US technology relationship, enabling future innovations and create a lasting and impactful partnership in diverse areas of IT, and Life sciences.

# SPECIAL PROGRAMMES

## Global Innovation Alliance (GIA)

Karnataka has forged enduring partnerships with various countries aimed to focus on technology sharing, cooperation on skilling, trade promotion, startups / soft Landing, and more. 19+ GIA partner countries will be leading their delegations consisting of experts from the industry, academia, R&D, and the government participating across Conference and Exhibition and B2B meetings.

## India Innovation Alliance Zone (IIA)

IIA is a dialogue amongst the leaders of innovation clusters across India that envisions cooperation and collaboration to multiply the speed of innovation and success.

## Bengaluru Next CEO Conclave

The conclave will be attended by over 100 of the most accomplished Indian CEOs. In conversation with political leadership and policy makers they will share insights, discuss future technologies, opportunities and how best Karnataka and India can continue to lead the world in the coming decade.

## Bengaluru Next Unicorns Conclave

This will be most exciting session where young, bold and visionary young leaders will come together to celebrate their achievements, share secrets of their success, talk about their next dreams and inspire many more young entrepreneurs and help create a roadmap for the state to take the world by the storm.

## STPI-IT Export Awards

These prestigious awards instituted over two decades ago by STPI will be presented to companies in IT, ITES, and other sectors in recognition of their export performance and contribution to the space.

## Smart Bio Awards

These are instituted with an aim of recognizing emerging biotechnology firms making impact in their chosen fields like Biopharma, Bio Services, Agribiotech, Med-Tech etc.

## National Rural IT Quiz

The National Rural IT Quiz is among the most enduring and popular programmes being conducted for over two decades, in association with TCS. This has helped enhance IT awareness among students at the grassroots level, keeping them abreast of the latest developments in the world of IT.

## Bio Quiz

This is India's largest state-level quiz on Biotechnology which will go National this year. The objective is to create awareness about the fascinating world of Biotechnology and encourage students to pursue their careers in this field.

## Poster Session - Walkway of Discovery

Popular amongst young researchers, the poster session will showcase innovative ideas, outstanding research and ground-breaking studies undertaken by the brightest minds from research institutes and universities with potential to make a significant impact in the field of Life Sciences & Biotechnology.

## B2B Meetings

The partnering tool helps delegates schedule targeted meetings using the One-on-One partnering application towards taking initial engagement to the next level.

## Pitstop

Pitstop is a conversation behind the curtains with the movers and shakers of Bengaluru Tech summit. This exciting programme introduced last year was an instant hit and this year too it promises to get major attention.

# Showcase Signup Succeed

## Several exciting domains

### One compelling experience

BTS Expo at Bangalore Palace promises to deliver most exciting experience for the visitors consisting of Business delegates, Business visitors specially signed up for the expo and tech enthusiasts.

Some of the leading global companies as well as Startups will be showcasing the technologies that will deliver immersive experience in the diverse sectors like Healthtech, Edutech, Agritech, Mobility and Rural technologies that will impact our lives in the near future.

Thus Exhibition will be one great place to connect, collaborate, market, source and experience the future. So get ready to showcase your technologies, solutions, products, services and innovations to gain ultimate exposure.
